

1. A *Phaseolus vulgaris* field bean seed designated Enola as deposited with the American Type Culture Collection under accession number 209549.
2. A field bean plant produced by growing the seed of claim 1.
3. Pollen of the plant of claim 2.
4. A field bean plant having all the physiological and morphological characteristics of the field bean plant of claim 2.
5. A method of producing a field bean plant comprising crossing a first parent field bean plant with a second parent field bean plant, wherein the first field bean plant is the field bean plant of claim 2.
6. A method of producing a field bean plant comprising crossing a first parent field bean plant with a second parent field bean plant, wherein the second field bean plant is the field bean plant of claim 2.
7. A method of producing a field bean plant comprising crossing a first parent field bean plant with a second parent field bean plant, wherein the first and second field bean plant is the field bean plant of claim 2.
8. A field bean variety of *Phaseolus vulgaris* that produces seed having a seed coat that is yellow in color, wherein the yellow color is from about 7.5 Y 8.5/4 to about 7.5 Y 8.5/6 in the *Munsell Book of Color* when viewed in natural light.
9. The *Phaseolus vulgaris* of claim 8 wherein the seed further comprises a hilar ring.
10. The *Phaseolus vulgaris* of claim 9 wherein the hilar ring has a color of from about 2.5 Y 9/4 to about 2.5 Y 9/6 in the *Munsell Book of Color* when viewed in natural light.

11. Propagation material of the *Phaseolus vulgaris* of claim 8.
12. Pollen of the *Phaseolus vulgaris* of claim 8.
13. Seed from a field bean variety of *Phaseolus vulgaris* that is completely yellow in color, wherein the yellow color is from about 7.5 Y 8.5/4 to about 7.5 Y 8.5/6 in the *Munsell Book of Color*.
14. Seed of claim 13 further comprising a hilar ring.
15. Seed of claim 14 wherein the color of the hilar ring is from about 2.5 Y 9/4 to about 2.5 Y9/6 in the *Munsell Book of Color* when viewed in natural light.

REMARKS

In response to the Decision mailed on June 13, 2001, Applicant has now amended the claims in the reexamination proceedings to conform to the claims of the reissue application. In particular, in the reexamination proceeding, claims 1 – 15 have been re-added. The reexamination proceeding now correctly includes claims 1 – 58 which conform to claims 1 – 58 of the reissue application.

In the Amendment filed on July 11, 2001, Applicant erroneously canceled claims 1 – 15 of the reexamination proceeding. It was never Applicant's intention to cancel claims 1 – 15 of the reexamination proceeding, but was merely a typographical error. In order to conform the claims of both the reexamination proceeding and the reissue application, all claims 1 – 58 should be present in both applications. Pursuant to a telephone conference with the Examiner on July 30, 2001, this Supplemental Amendment is being filed. A copy of the Amendment filed on July 11, 2001, is enclosed for the Examiner's review.
